AUTHORITY: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Refuge Alternatives for Underground Coal Mines information collection. MSHA regulations mandate each underground coal mine to have an emergency response plan and refuge alternative(s) to protect miners by providing secure spaces with isolated atmospheres that create life-sustaining environments when escape from a mine during a mine emergency is not possible. See 30 CFR 75.1506(c)(2), 75-1507, and 75-1508(a) and (b). This ICR covers the refuge alternatives portion of emergency response plans and records for training, examination, maintenance, and repair of refuge alternatives and components. This ICR is being submitted as a revision, because the MSHA has transferred burden to other approved collections; this ICR makes the corresponding

changes to this collection. Federal Mine Safety and Health Act of 1977 sections 101(a)(6) and 103(c) and (h) authorize this information collection. See 30 U.S.C. 811(a)(6); 813(c), (h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0146.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on May 28, 2015 (80 FR 30494).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section by November 30, 2015. In order to help ensure appropriate consideration, comments should

mention OMB Control Number 1219-0146. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
